

Instructions to activate the Rapid palatal Expander:

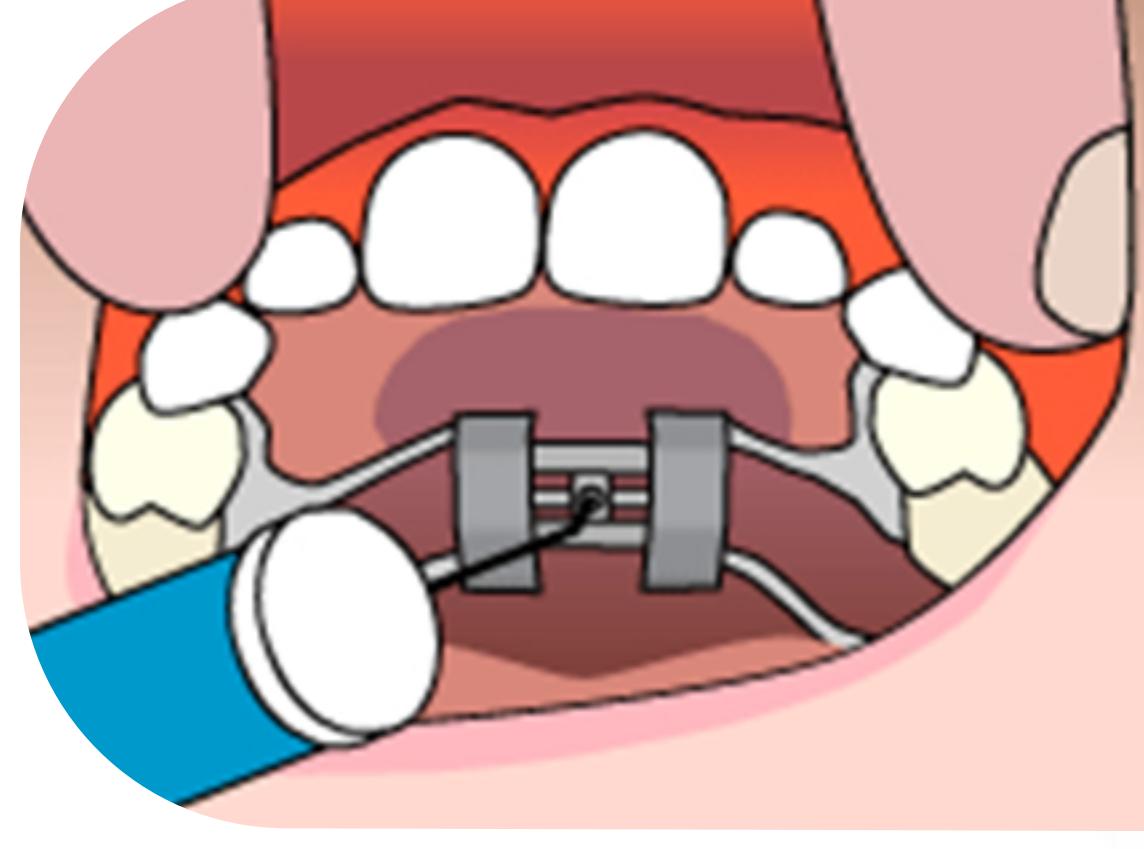

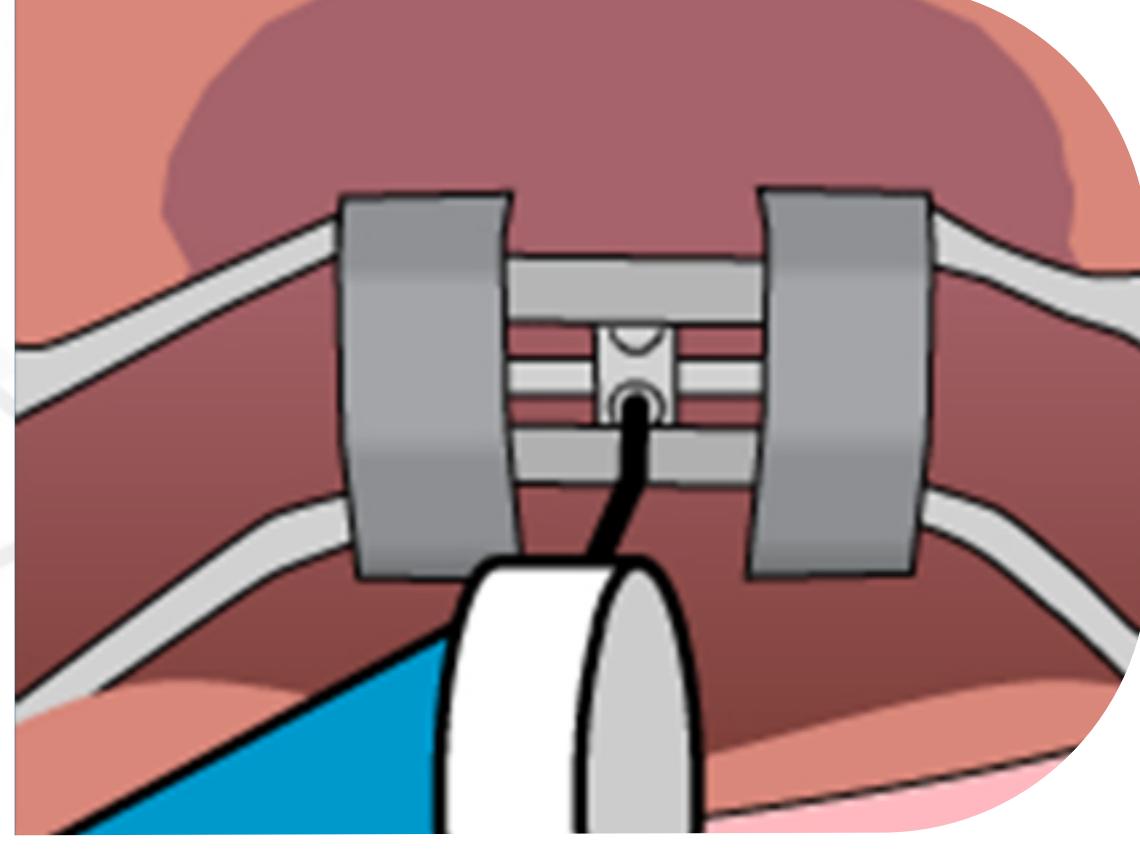

Step 1

In a well-lit area, tip the child's head backwards. The higher their chin is, the easier it will be for you to see the hole.

Step 2

Place the key into the hole until it is firmly in place.

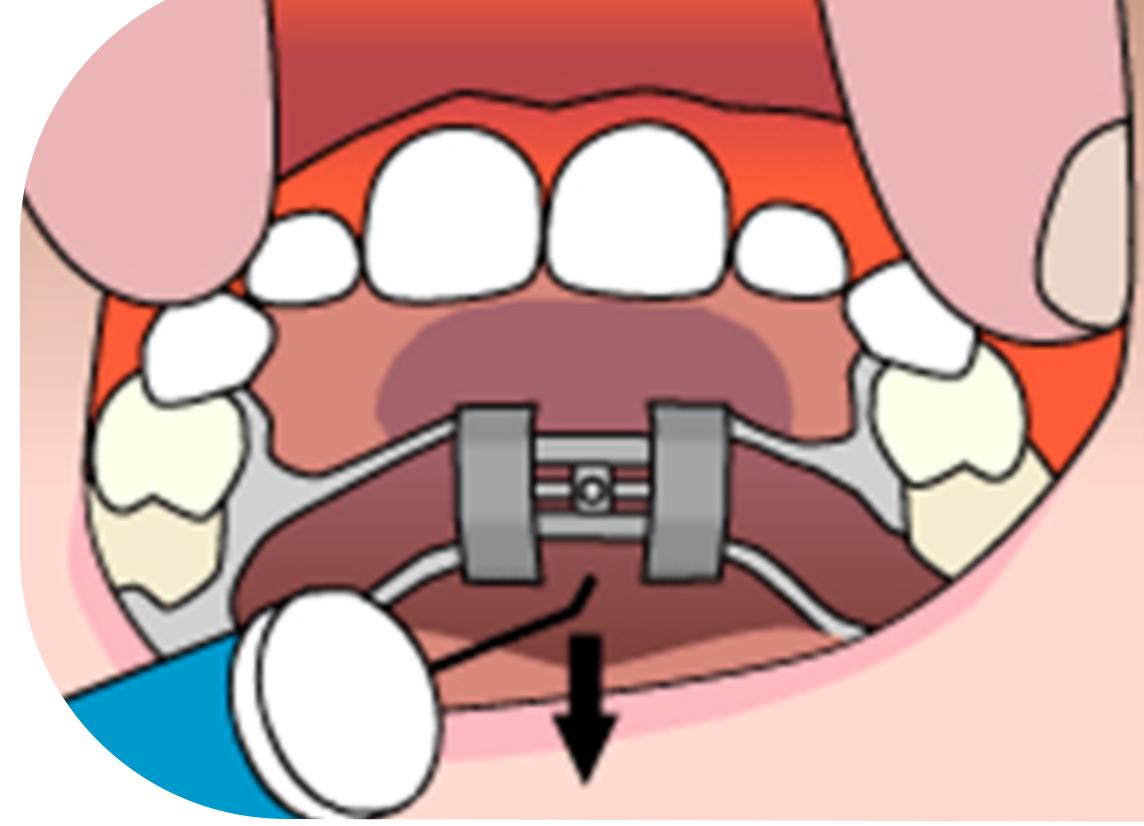

Step 3

Push the key towards the back of the mouth. You will notice the center cog has turned and a new hole has appeared. The rotation stops when the key meets the back of the expander.

Step 4

Slowly remove the key from the hole by pushing the key straight down and out of the hole. Be careful not to accidentally unwind the expander while removing the key. The next hole should still be visible after removing the key.

Follow your doctor's instructions for maximum activations completed:

The image shows a blank weather log template. At the top left, the word "DATE" is written in large white capital letters. To the right of "DATE" are two icons: a yellow sun with rays and a white crescent moon with a dark shadow. Below the header is a large, empty rectangular area for notes. The main body of the template consists of a 6x3 grid of light gray boxes, intended for recording daily weather data. Each row represents a day of the week, and each column represents a specific weather category. The grid is bounded by thick gray lines. At the bottom of the page, there is a thin horizontal line followed by the text "PRINTED BY _____" and "DATE _____".

The image shows a blank weather log template. At the top left, the word "DATE" is written in large white capital letters. To the right of "DATE" are two icons: a yellow sun with rays on the left and a white crescent moon with a blue outline on the right. Below the header is a large, empty rectangular box. The main body of the template consists of a 6x3 grid of empty boxes for recording weather data. Each row in the grid represents a day, and each column represents a specific weather category.

This image shows a blank monthly calendar template. At the top left, there is a large white box labeled "DATE". To the right of this box are two icons: a yellow sun with rays and a white crescent moon with a blue shadow. The main body of the calendar is a grid of 6 rows and 3 columns, consisting of 18 light gray rectangular boxes. Each row represents a week, and each column represents a day of the week.
